Catch a Sail

Sailing with Zepp Sticks[®] is easy — they fold neatly in stow position on the boom. When it's time to lower the mainsail, just swing out the Zepp Sticks and raise and extend the Gathering Arms. After furling, secure mainsail by folding over Gathering Arms or using sail ties.

Sailing with Zepp Sticks folded in stow position on boom, with Gathering Arms removed

2 Zepp Sticks swung out in preparation for lowering the mainsail

3 Gathering Arms in place, raised and extended, ready to lower mainsail

Eric Eschen, ZeppSticks@gmail.com, Patent #8,985,043 Zepp Sticks is a product of Zepp Sticks LLC

5 Mainsail furled, Gathering Arms folded over to quickly secure sail

In marina, mainsail neatly flaked and ready for sail cover

Gathering Arms removed and sail ties used to secure mainsail to boom. Zepp Sticks also provide a convenient platform for working on or folding and removing your good racing mainsail.
